Ph.D. Development Economics
Fall 2024**

Instructor: Norihiko Matsuda
Office: Deuxieme Maison 309C
E-mail: nmatsuda@fiu.edu
Office hours: Tu/Th 12:30-1:45 or by appointment

Course schedule: Tu/Th 2:00- 3:15
Course meets: Deuxieme Maison 163

1. Course Description and Objectives

This class is a graduate level course on development economics. The goal of this course is to prepare students for their own work by giving them theoretical and empirical knowledge on microeconomic development and practices in critically reading papers and laying out research ideas. The topics covered include institutions, household models, credits, savings, insurance, education, health, gender, migration, labor markets, and firms. The class will work through a few papers in detail rather than synthesize a literature. Students are expected to have read the articles and be prepared to discuss them in class in depth.

Although the course name is Development Economics *Theory*, the course will put equal, if not more, weight on empirical applications, given the importance of empirical work in the current literature on economic development.

2. Prerequisites

Graduate coursework in economic theory and econometrics is prerequisites for this class.

3. Course Requirements

3.1 Participation (10%)

You are expected to come prepared to discuss and analyze the readings. I will ask you questions about the required readings during class. Also, you should ask questions and share your thoughts.

3.2 Homework assignments (60%)

There will be three homework assignments that combine theoretical and data analysis (17% each). You will need to use Stata or similar statistical software.

3.3 Paper presentations (30%)

Each student presents two published and unpublished papers in depth for 45-60 minutes, where your fellow students and I will interrupt and ask to make sure that important pieces are explained. This presentation must be intensive as the fellow students and I will read papers thoroughly and prepare what to ask and explain. Students must seriously read

papers and understand them. In the last slide(s) of your presentation, you must add your praise and critics on the papers.

These assignments will allow you to read and critique papers on the research frontier of development economics and have a concrete sense of the quality of top work in the field.

3.4 Grading

Assignment due dates and point distributions are given below. If you choose not to turn in an assignment on time, you will lose 20% of the total points that you earn on the assignment for each day that it is late.

Assignment	Points
Participation	10
Homework 1	20
Homework 2	20
Homework 3	20
Presentation 1	15
Presentation 2	15

Final letter grade will be awarded according to the scale below:

A	≥ 90
A-	$86 \leq & < 90$
B+	$82 \leq & < 86$
B	$78 \leq & < 82$
B-	$74 \leq & < 78$
C+	$70 \leq & < 74$
C	$65 \leq & < 70$
D	$60 \leq & < 65$
F	< 60

4. Course Outline and Readings

This schedule is subject to change. I may add or drop readings during the semester. I will announce changes in class and update the syllabus.
